Introduction to the Public Accounts

The 2014-15 Public Accounts of the Government of Saskatchewan (the Government) are prepared in accordance with the *Financial Administration Act, 1993* and consist of two volumes. The Government is responsible for the integrity and objectivity of the information presented in these two volumes.

Volume 1

Financial Statement Discussion and Analysis provides users of the Government's Summary Financial Statements (SFS) with an overview of the Government's performance by presenting comparative financial highlights and variance analysis. The information in the financial statement discussion and analysis should be read in conjunction with the SFS.

Summary Financial Statements provide an accounting of the full nature and extent of the financial affairs and resources of the Government. This includes the financial results of the General Revenue Fund (GRF), Crown corporations, boards and other organizations controlled by the Government. A listing of all organizations controlled by the Government, collectively referred to as the government reporting entity, is provided in schedule 18 of the SFS.

Volume 2

Volume 2 contains the following unaudited financial information:

General Revenue Fund
- reconciliation of GRF results to the SFS;
- revenue and expense schedules and details;
- capital asset acquisitions schedule and details;

Revolving Funds
- expense details;

Supplier Summary
- listing of suppliers who received $50,000 or more for goods and services and capital assets supplied to the GRF and Revolving Funds during the fiscal year;

Other Information
- Growth and Financial Security Fund transfers and accumulated balance;
- Debt Retirement Fund accumulated balance;
- assets, liabilities and residual balances of pension plans and trust funds administered by the Government;
- remissions of taxes and fees; and
- road-use fuel tax accountability revenues and expenditures.

The Public Accounts are available on the Internet at http://www.finance.gov.sk.ca/public-accounts/.

A Compendium is also available on the Internet at http://www.finance.gov.sk.ca/public-accounts/ that contains the financial statements of various government agencies, boards, commissions, pension plans, special purpose funds and institutions, as well as Crown corporations which are accountable to Treasury Board. In addition, the financial statements of Crown corporations and wholly-owned subsidiaries that are accountable to the Crown Investments Corporation of Saskatchewan Board can be found, through links, on the Internet at http://www.cicorp.sk.ca/.

Guide to Volume 2

Volume 2 is prepared to enhance accountability by providing unaudited financial information for the General Revenue Fund.

The General Revenue Fund is comprised of all Ministries of the Government. This is the fund into which all revenues are paid, unless otherwise provided for by legislation, and from which all expenses are appropriated by the Legislative Assembly.

Some schedules provide a comparison of appropriations to expenditures by program. Expenditure is calculated from total expense, adjusting for capital asset acquisitions, amortization and other changes in non-financial assets, including prepaid expenses.

Details of Expense

Information on the details of expense includes:

Mandates – a description of the mandates and major program areas.

Expense summary – a matrix showing the expense amount for each program, grouped into major expense categories.

Payee amounts – a listing for each major category of expense, as described below.

The expense categories are:

- **Salaries and Benefits**
  This category includes salaries, wages, honorariums and compensation paid to employees and others who provided personal services, and pension and public sector benefit expenses. Payees who received $50,000 or more are listed. Allowances for members with additional duties are also listed.

- **Transfers**
  Transfers are listed by program for recipients who received $50,000 or more. Details are not provided for high volume programs of a universal nature or income security and other programs of a confidential and personal nature. Total by recipient includes:

  Capital Transfers
  Transfers provided to a third party such as a school board, regional health authority, university or municipality to acquire or develop capital assets.

  Operating Transfers
  Transfers to or on behalf of individuals, local authorities and other third parties, for which the government does not receive any goods or services directly in return.

- **Goods and Services**
  Expenses for goods and services include travel expenses incurred by employees, members of the Legislative Assembly, and others who provided personal services; contract services; and communications expense for promotion of programs and for non-promotional expense, including exhibits, displays, and the printing of educational and informational material. Amounts for Ministers' travel expense and for suppliers who received $50,000 or more for goods and services are listed.

- **Capital Asset Amortization**
  The cost of tangible capital assets allocated to expense over their useful life.

- **Other Expenses**
  Expenses which do not fit in any of the above categories. Payees who received $50,000 or more are listed.

- **Internal Recoveries**
  Recoveries for the provision of shared services of $50,000 or more are listed.

Additional information is reported for two ministries:

- Highways and Infrastructure – a report on major preservation expense and infrastructure capital by highway.
- Legislative Assembly – schedules of payments to Members of the Legislative Assembly for serving on committees and boards as well as for their indemnities, allowances and expenses as members.

Capital Asset Acquisitions

A schedule provides capital asset acquisitions by class. Capital asset classes include land, buildings and improvements, machinery and equipment, transportation equipment, office and information technology and infrastructure.

Payees who received $50,000 or more for the provision of capital assets are listed. Internal recoveries of $50,000 or more are also listed.

Revolving Funds Details of Expense

Payees and suppliers who received $50,000 or more from Revolving Funds are listed. Expense categories and amounts listed are the same as for the General Revenue Fund.

Supplier Summary

Suppliers who received $50,000 or more for goods and services and capital assets supplied to the General Revenue Fund and Revolving Funds during the fiscal year are listed. These amounts are classified as goods and services and capital asset acquisitions in Volume 2.

Remission of Taxes and Fees

Individuals or companies who were granted remissions of taxes or fees are listed in the Statement of Remission of Taxes and Fees. A remission is a return of or an exemption from liability to pay a tax, royalty, rental or fee payable to the Crown. Section 24 of *The Financial Administration Act*, 1993 provides that the Lieutenant Governor in Council may grant remissions where he/she considers it to be in the public interest or that great hardship or injustice to persons would otherwise occur. The Act permits the Minister of Finance to grant remissions where the amount is not greater than $1,000.

The program helps the agri-food industry to explore new and innovative ideas that enhance the competitiveness of the agricultural sector.

Regional Services (Subvote AG07)

Objective
To ensure farmers and ranchers, producer groups, agribusinesses and industry have access to production, agri-processing and business information and services, and to promote agricultural awareness. To provide strategic development, production, agri-processing and regulatory services through regional and provincial specialists. This is done through extension and demonstration of new technologies, information provision and problem solving relevant to crops, forage, irrigation and livestock producers and value-added businesses.

Program Delivery

This program provides services to irrigation farmers including research and demonstration, certification and on-farm development assistance. It provides project management services related to government-owned irrigation infrastructure and also provides for the rehabilitation of this infrastructure.

This program provides for crop pest monitoring and diagnostics. It also administers weed, pest and pesticide regulation, and provides animal health and veterinary diagnostic services and advice to the industry. Economy (Vote 023)

The Ministry of the Economy works to advance economic growth and generate wealth and opportunity in Saskatchewan by aligning government's primary economic, resource and labour market development programs. Economy is also responsible for immigration, northern development and includes funding for Tourism Saskatchewan. Economy's core lines of business are to enhance economic growth and competiveness; to advance and regulate responsible resource development; and to develop, attract and retain a skilled workforce.

Central Management and Services
(Subvote EC01)

Objective
To provide executive direction and centrally-managed services in the areas of finance, information management, communications and other operational services that include head office and program-based accommodations and capital improvements required for the delivery of the Ministry's mandate. It oversees process review, including the Process Renewal and Infrastructure Management (PRIME) Project, to modernize and transform the Government's oil and gas industry. It also supports the Surface Rights Arbitration Board.

Program Delivery
This program provides coordination and liaison support with various government agencies in delivering the processes that support the Ministry's mandate. Support is provided in the areas of communications, financial, administrative, and information technology services.

Mineral, Land and Resource Policy
(Subvote EC06)

Objective
To conduct economic research and identify, analyze and develop policies to encourage economic growth, and promote energy conservation and resource development. It designs and maintains tax structures for industrial, metallic minerals and coal to optimize revenues and ensure industry competitiveness. It works in partnership with business, communities, governments and other provincial agencies to develop and deliver policies and programs to enhance forest industry competitiveness, increase investment and facilitate value-added production in the forest sector. It also implements the mineral provisions of Treaty Land Entitlement and other Aboriginal land agreements and provides land policy support to provincial initiatives affecting mineral lands of the province.

Program Delivery
This program performs geological and mineralogical studies; maintains geoscientific databases including the sub-surface laboratory; promotes resource development through publications, meetings, displays and individual consultations; and assesses petroleum and mineral exploration results. It administers the Crown's mineral rights for commodities such as gold, base metals, uranium, potash and diamonds and collects, processes and stores information related to mineral and oil and gas exploration and mineral production. In addition, it provides policy direction on energy and mineral pricing, taxation and tax incentives for the mineral sector, and issues related to energy development and conservation and advice on inter-provincial and federal-provincial initiatives and issues that may affect the non-renewable resource producing sectors of the provincial economy.

Petroleum and Natural Gas
(Subvote EC05)

Objective
To develop and administer Crown royalty and freehold production tax structures to optimize revenues from the oil and gas industry, promote continued resource development, and manage the sale and administration of Crown oil and gas rights. It regulates the industry by establishing and enforcing conservation, public safety protection and environmental management standards. It also collects, validates, and distributes petroleum energy sector data to support core needs of the Ministry including regulatory compliance, revenue collection and resource management.

Program Delivery
This program manages the Crown's petroleum and natural gas rights through bimonthly sales and the administration of various disposition types. This program also develops and implements Crown royalty and freehold production tax structures and incentive programs for crude oil and natural gas, including the development of regulations, to encourage crude oil and natural gas investments to be made in the Province while generating appropriate benefits for the Province. In addition, the program analyzes markets and prices for crude oil and natural gas, and develops economic and revenue forecasts to assist with government planning. Furthermore, it develops and enforces regulations to maximize resource recovery and conservation, and ensure minimal impact on the environment related to petroleum and natural gas development. The program licenses wells, facilities and pipelines to ensure compliance with safety and environmental standards and manages the environmental risk and long-term liability associated with oil and gas wells and related facilities through the Orphan Well Program. It also collects, processes, stores and disseminates information related to crude oil and natural gas exploration, development, production and marketing to assist in revenue collection and resource management. Finally, the program is responsible for the operation of the Oil and Gas Conservation Board. The Board is available to adjudicate industry disputes that cannot readily be resolved through the normal operation of the Ministry.

Revenue and Corporate Services
(Subvote EC04)

Objective
To invoice, assess, collect and audit resource revenues, mineral rights taxes and various Ministry programs. It also works with federal and other governments on policy and program issues as well as provides leadership and support in the areas of information and privacy, internal audit and public service renewal.

Program Delivery
This program initiates invoicing for oil and gas royalties; implements and maintains appropriate collection and auditing programs for the province's non-renewable resource industry, labour market programs and business programs of the Ministry as well as the internal audit function for the Ministry. In addition, it provides tax incentives for the mineral sector, and business programs to increase entrepreneurship and investment in small businesses. This program provides advice on inter-provincial and federal-provincial initiatives and issues that may affect the non-renewable resource producing sectors of the provincial economy and is responsible for coordinating information and privacy policies and

responses, as well as leading the Ministry's work in public service renewal.

Objective
To provide for costs associated with a portion of the public debt reimbursable from Crown corporations.

Ombudsman (Vote 56)

The Ombudsman, an officer of the legislative assembly, helps to ensure the government is accountable and fair when it provides services to the public. As Public Interest Disclosure Commissioner, the Ombudsman also helps to ensure the government provides a workplace where wrongdoings can be safely raised and appropriately addressed.

Ombudsman (Subvote OM01)

Objective
The Ombudsman Act, 2012, gives the Ombudsman the authority to investigate or informally address complaints of unfairness in government actions. *The Public Interest Disclosure Act* appoints the Ombudsman as the Public Interest Disclosure Commissioner, with the authority to provide advice to and investigate disclosures from public servants with allegations of wrongdoing or reprisal within their government institutions.

Program Delivery
As Ombudsman, receives, investigates or informally addresses complaints about administrative actions of government institutions. When appropriate, makes findings and recommendations, issues reports, and engages in public education about fairness and the role of the Ombudsman. As Public Interest Disclosure Commissioner, provides advice to and investigates disclosures from public servants with allegations of wrongdoing within their government institutions. Investigates complaints from public servants who allege they have been subject to reprisals as a result of seeking advice, making a disclosure, co-operating in an investigation, or declining to participate in a wrongdoing.

Non-Appropriated Expense Adjustment (Subvote OM03)

Objective
To account for expenses and expense recoveries that do not require appropriation.

Program Delivery
This program accounts for the estimated annual consumption of the Office's capital assets. Amortization is calculated using the straight-line method based on the estimated useful service life of the asset. Amortization is a non-voted, non-cash expense.

The Growth and Financial Security Fund (GFSF) was established May 14, 2008, by *The Growth and Financial Security Act*.

In accordance with *The Growth and Financial Security Act*, the GFSF receives 50 per cent of the pre-transfer surplus of the General Revenue Fund (GRF) in any fiscal year. Transfers first accrue to the security component, as required, to maintain a balance of $500.0 million, after which additional transfers will accrue to the growth component. This legislation also permits Treasury Board to approve other transfers between the GFSF and the GRF.

Transfers to the GFSF from the GRF are statutory disbursements. Amounts transferred to the GRF from the GFSF are available for use subsequent to receiving required approval from the Legislative Assembly.

In accordance with *The Growth and Financial Security Act*, all earnings on the GFSF's investments are credited to the GRF. For 2014-15, this amount was $13.7 million (2014 - $18.0 million).

The GFSF's assets have been invested in fixed income securities as follows:

	2015	2014
Long-term investments in securities of:		
Government of Saskatchewan	$	$ 14,453
Government of Canada (coupon interest range 1.20% to 1.75%; maturing in 3.2 to 5.2 years)	6,492	76,457

Total Growth and Financial Security Fund	$ 131,269	$ 446,269

The portfolio investments noted above are accounted for using the cost method. Under this approach, the GFSF earned a return of 3.0 per cent (2014 - 2.7 per cent).

The market value of the GFSF's net assets at March 31, 2015 is $133.1 million (2014 - $531.6 million).

(1) Cash, accounts receivable, short-term investments and accrued interest are disclosed net of $60.0 million in liabilities (2014 - $85.0 million).
